**Strengths:**

Dewi, overall an excellent performance. Your communications were great with the players and your reading of the game excellent, especially advantage. If you look at the stats you will see that your penalties were well "spread around" showing you were focussing on all areas. We just need to get the overall number of penalties down. (note that Martin's stats for lineouts and advantage for the second half show some missing elements)

**Coaching Advice**

**1. Tackle & Ruck**

You refereed this area well picking up most of the deliberate offences; setting a high standard from the first. You gave 12 penalties in this area in the first half. Whilst there was no particular "run" of offences, at Div 1 level we need to have a lower tolerance for repeated offences. After 3 or 4, warn the captain and YC future offenders. The penalty count was better in the second half but when you gave both captains their final team warnings you failed to deliver the sanction of a YC at the subsequent offence (that was deliberate). A final warning must be final.

A would suggest you stand one metre or more further from the breakdown than you do now and don't advance beyond the "A line" - you will get a more holistic view.

**2. Player Management**

Don't let players keep talking to you and don't keep telling the captains to keep them quiet. You must be strict on this, especially the higher you get in refereeing. Warn the captains the first time and penalise talking on the next occurrence.

**3. Secondary Signals**

When "busy" you missed secondary signals or they were not clear. Remember to give a clear signal to allow the players, crowd and PRs to see what the penalty is for.

**Other:**

Lineout Gap. You started this well, remember to maintain the standard throughout the game. You may wish to call "line out over" to the backs when the ball is caught in the lineout, rather than "come up now".
